PROFILE

TS EIT 3 student at INP-HB (2026–2027), developing applications and digital, IoT and systems solutions. Also interested in AI and network administration.

PROFESSIONAL EXPERIENCE

SOUTARAH GROUP · Computer networks and systems intern · Aug 3–Oct 2, 2026 Studied, designed and deployed a wired, Wi-Fi and server infrastructure: Ethernet deployment, cabling, equipment and server configuration, interconnection and testing.

MANDIGO SARL · Introductory web development internship · Bouaké · Jul–Aug 2025

JPH ÉLECTRONIQUE · Final-year electronic maintenance internship · Bouaké · Dec 2023–Jan 2024

EDUCATION & CERTIFICATIONS

2026–2027 Third-year TS EIT · 2025–2026: second year, Higher Technician programme · 2024–2025: common core in Information and Communication Technologies · INP-HB.

Earlier qualifications Electronics Technician Certificate, EPCT Bouaké (regional laureate), 2023–2024 · BEPC, 2019–2020.

Training 3D Design & Printing, FabLab Solidaire / Orange Digital Center (Nov 2–4, 2026) · Cisco Networking Academy: cybersecurity, IT Customer Support Basics, IoT · Campus Citoyen (2025).

SKILLS

Development HTML, CSS, JavaScript, PHP, React.js, Angular, Node.js, Express.js, Python, Django, Java.

Data & mobile MySQL, PostgreSQL, MongoDB · Flutter (hands-on practice).

Systems & networks Linux, Ubuntu, Kali Linux, Ubuntu Server, Windows Server · systems configuration and administration · computer networks.

Electronics & tools ESP32, Arduino, C++, IoT, Proteus, Bootstrap.

Currently studying Hadoop / MapReduce · Electrical AutoCAD.

SELECTED PROJECTS

SmartEnergy · Complete IoT electricity-consumption monitoring · React.js, Node.js, Express, ESP32.

GeoGuard · In progress Satellite imagery analysis, change detection and alerts.

IA_Imprim / IntelImprim · In progress AI-assisted grading application.

FleetPro · In progress Fleet, driver, assignment and preventive maintenance management.

Supermarket · Complete Product, sales, inventory and customer management · PHP, PostgreSQL, JavaScript.

Robot simulator · Prototype 2D robotic-arm simulation and kinematics.

Other projects Boutique-Rose / OURYA, Bolikro Chez Wolf and Soutarah vehicle catalogue (complete) · IvoireDomi (in progress).
